

CHILDPACT
INTERNATIONAL

FORMALLY ASIAN AID USA

OUR NEW BRAND

Asian Aid was established over 50 years ago, and in that period, has educated tens of thousands of children in mission schools.

The bold new name Child Impact International will give momentum to helping thousands of additional needy children. The new brand brings the following benefits:

CHILDIMPACT
— INTERNATIONAL

-  The name reflects more accurately the critical work the organization does in impacting the lives of children.
-  The new name gives momentum to a bold growth strategy.
-  The name avoids the confusion with participating countries in Asia.
-  This step helps set us apart from Asian Aid Australia, a totally separate organization.
-  Child Impact International will create improved communication with donors using the latest technology.
-  Child Impact International will be able to expand outside Asia and be more effective internationally.
-  The board, staffing, office location and policies stay the same.

“Child Impact International will allow our organization to grow and give momentum to help thousands of new needy children”.

- John Truscott, Child Impact International Chairman

There will be no changes for existing donors but over time donors will see an improvement in communication with the children and projects they support.

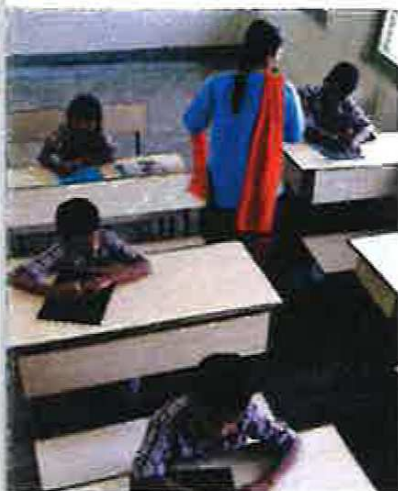

Child Impact International is a fully supportive ministry of the Adventist Church that aids children, orphans and special needs children in Adventist schools & homes. Over 90% of funds remitted overseas go to Adventist mission schools. The life of the child is changed, and the mission school gains unique funds.

“Donors can be confident that their support of Child Impact International will have a huge impact on the lives of children and their families in meeting their spiritual needs.”

- Jim Rennie, Child Impact International CEO

"WHERE NEEDED MOST FUND"

This fund is critical to the total operation of Child Impact International, both in ensuring its day-to-day operations as well as supplying resources and funds for projects and urgent needs. Support of this fund enables Child Impact's work to be more all-encompassing and wholistic, expanding beyond specific projects and taking care of daily needs that arise.

SPECIAL NEEDS SCHOOLS

Child Impact funds schools for the blind and hearing impaired in India. These schools serve children from very poor communities that would not normally get an education because of their disability. These two schools have an amazing impact on these very needy children and financial support is a constant need.

SLUM SCHOOL

In the major city of Vizak, India, Child Impact sponsors over 150 children at a school located in the slum as well as nearby schools. These children are the poorest of the poor, and parents simply can't support their children. This project not only gives the child an education but gives the families and community hope!

ORPHANAGES

Child Impact provides support for over 300 orphans in India and Bangladesh. This includes 100% of the "Sunrise" home in India, an orphanage with over 130 children in a special rural area. The demand for orphan support is high, and your support directly gives a child hope!

EDUCATION DEVELOPMENT

In many of the schools and regions Child Impact sponsors, children lack basic classroom essentials and resources. Common needs include classroom furniture, computers, science equipment, and other teaching resources. Support of this fund directly impacts the education of thousands of needy children.

SPONSORSHIP

Child Impact International selects children based on need and gives them an education in an Adventist Mission School. Sponsors support a specific child and receive a school report as well as occasional letters & stories. Every morning, your support has an impact on a life in the mission field.

BENEFITS INCLUDE:

-  Your sponsorship ensures the child receives an education.
-  You give hope to the child and their family breaking the poverty cycle.
-  The child returns to the community with valuable skills.
-  Your funds give key support to an Adventist mission school.
-  You make a lifetime impact for that child.

EDUCATE MYANMAR

Myanmar (formally Burma) is bordered by Thailand, China, and India. Myanmar is a very poor country which has suffered much political unrest and religious suppression. Many children need urgent sponsorship in Adventist mission schools, which are the main outreach for the church. This fund really has an impact in a needy country!

NEPAL HEALTH

Child Impact International has a close working relationship with Scheer Adventist Hospital in Nepal. Projects in Nepal include Women's health and prolapse operations, child health, and post-earthquake support for children.
