Our Family is...

International Children's Care (ICC) is a worldwide collection of individuals who have a passion for creating families for orphaned or abandoned children.

In 1976, a tragic earthquake left countless children in Guatemala City orphaned. ICC founders, Ken & Alcyon Fleck, determined to restore the love of a family to these children struck by utter devastation. Since that time, thousands of children from around the world have been embraced into our family.

International

- The first seeds of our ICC family were planted in Guatemala in 1977.
- Since we started, our family has flourished and includes children from around the world.
- Today, our ICC family of children and supporters is found on six of the seven continents of the world.

Children

- ICC's programs become the lifeline for innocent children of all ages who come to us as a result of being orphaned, abandoned, neglected or abused.
- Our children often need long-term, specialized care. ICC strives to meet these needs—one child at a time.

- Providing love for today and hope for the future is the family commitment we make to all of our children.

Care

ICC builds and maintains "Children's Villages" consisting of individual family homes, educational facilities, campus industries and a chapel.

In this safe, caring environment children...

- belong to a family for life,
- play as normal children do,
- blossom in the warm, loving atmosphere of their Christian home,
- develop trust and maintain healthy relationships, and
- become caring people who want to make a difference in their own country.

Join Our Family

You, too, can help an orphaned or abandoned child by becoming part of our ICC family. Here's how:

- Sponsor a child and watch him or her grow as you receive progress reports.
- Give time as a volunteer.
- Provide needed items.
- Contribute financially.
- Leave a legacy by remembering ICC's children in your will or trust.
- Pray for our children.

As a family member, you'll be glad to know that we're careful with contributions. We make sure that at least 90% of US donations go to children's programs.
